**Subject:** OPPOSE SB16 - AN ACT ADDRESSING GUN VIOLENCE AND JUVENILE CRIME.

Hello,

I ask that you OPPOSE SB16.

First off, the serial number requirement poses three issues:

- There are antique firearms with serial numbers. To serialize would damage them and their historical value
- It poses a trap for those unaware of the new law that are still in possession of un-serialized firearms.
- Lastly, it does not accomplish anything except for making firearms ownership and manufacturing more complicate for private citizens.

Second, the additional restrictions on where a firearms may be carried is also designed as a trap for legal firearms owners. It's effects would be to create more criminals out of legal firearm holders.

Thank you for your time,

-Richard
